About Me

I am a full-stack web developer, I am driven by a deep passion for creating engaging and dynamic online experiences. I thrive on the challenges that come with designing and coding websites. From front-end development with HTML, CSS, and JavaScript to back-end technologies like Node JS and databases.

Skills

Front End

HTML 5, CSS, JavaScript, TailwindCSS, React JS.

Tools & Technologies

Github, Visual Studio Code, Chrome Dev Tools, NPM,JSON, Postman, Vercel , Vite.

Back End

Node.js , Express js.

Databases

MongoDB, MySQL , appwrite.

Projects

Password-Manager → { [Demo](#) }

Developed a secure Password-Manager application to store and manage user passwords. Utilized ReactJS for building a dynamic and responsive user interface.

Blog-App → { [Demo](#) }

Created a dynamic blog application using ReactJS for the front end and Appwrite for backend services. Utilized Appwrite for user authentication, database management, and real-time data updates

Strontium → { [Demo](#) }

Developed a functional clone of Spotify, named Strontium, showcasing proficiency in front-end development. Implemented responsive design to ensure compatibility across various devices and screen sizes.
